

The **QUIK-KUT** Air Hammer is designed for quick and powerful impact to cut through heavy gauges of metal for rapid rescue operations.

## THE HEART OF THE KIT

Tool bits are made from heat treated tool steel and are available in lengths from 8 to 18 inches, and specially designed for modern car, van, truck and bus extrication.

## QUIK-KUT HEAVY DUTY AIR HAMMER

Produced from aircraft aluminum and tool steel, the **Quik-Kut** Air Hammer is both lightweight and dependable. The **Quik-Kut** is activated by a safe, variable speed trigger for easy control.

The trigger releases the air supply driving the piston 4 inches forward against the tool bit for powerful impact, and the air returns the piston for quick cutting (approximately 2200 blows per minute).

**LENGTH - 10 INCHES, WEIGHT - 6 LBS**  
**NORMAL OPERATING PRESSURE RANGE - 150-200 PSI**  
**BLOWS/MINUTE - 2200, AIR COMSUMPTION (AT 100 PSI)**  
**8 CFM AVG., PRESSURE RANGE - UP TO 300 PSI**

The **Quik-Kut Kit** Pt# 89501, comes standard in a heavy duty, water resistant, rugged carrying/storage case. Each component has its own slot to prevent breakage or tool loss as well as provide high visibility.

(Also available in the Quik-Hit Bag - pictured on the left.)
